OBJECTIVE

Although not actively seeking full-time employment, I am continually searching for opportunities to help others while developing my technical skill set.

RELEVANT EXPERIENCE

Information Technology Consultant, July 2003 - Present
Big Consulting Company, Pittsburgh, PA

- Created interactive financial and HR web-based training courses for bank tellers, state employees, and central accounting employees
- Detected and fixed defects in insurance policy management software
- Recommended and implemented business, process, and technology improvements for our clients

Computer Cluster Manager, Jan 2001 - May 2003
Computing Services, Carnegie Mellon University

- Managed a dual PC, Macintosh cluster containing fifty computers
- Solved software problems, fielded user questions, and maintained printers
- Researched and proposed a color laser printing solution for Carnegie Mellon

Lead Technology Curriculum Developer and Tutor, May 2002 - July 2003
Homeless Children's Education Fund, Pittsburgh, PA

- Lead the development of the 212-point technology education curriculum
- Assisted with the development of a database-driven tracking system
- Taught computer skills to homeless children aged 5 to 21
- Created multimedia presentations for advertising and funding recognition

Computer Skills Workshop Instructor, Aug 2000 - Present
Computer Education, Carnegie Mellon University

- Served as the primary instructor for over one hundred fifty students
- Taught HTML, FTP, Adobe Photoshop, Microsoft Word, Excel, PowerPoint, and UNIX

Founder, Eric Barker, Personalized Computer Services

- Installed and configured secure small office Ethernet networks
- Trained computer novices: Internet, email, Windows, word processing
- Assembled custom computers, performed hardware upgrades and troubleshooting
- Created websites: maizephotography.com, sunfloweryogastudio.com
